Description

Nestled along Raya Canggu, Villa Silka is a stunning Mediterranean inspired 2 bedroom villa that brings a touch of European elegance to the heart of Bali's most vibrant neighbourhood. Set on 200 sqm of land with a 70 sqm one storey layout, this fully furnished villa immediately captivates with its signature arched windows, warm sandstone feature walls, and an exquisite private pool complete with built-in sunken seating a design detail reminiscent of the sun-drenched villas of Santorini. Lush tropical plants spill over crisp white walls, creating a beautiful contrast that feels both exotic and refined.

Inside, the enclosed living spaces continue the same warm, curated aesthetic an open-plan kitchen and dining area bathed in natural light through oversized arched glass windows framing a private garden wall, with warm timber cabinetry, stone island countertops, and woven rattan pendant lights that tie the entire space together beautifully. Every detail has been thoughtfully considered, giving the villa a boutique feel that is both stylish and deeply comfortable. Two well-appointed bedrooms and two bathrooms across two floors provide just the right amount of space and privacy for couples or small families looking for a refined Bali base.

Available on leasehold until 2049, Villa Silka represents an exceptional long-term living or investment opportunity in one of Canggu's most sought-after addresses. With the energy of Raya Canggu's cafés, restaurants, surf shops, and beach clubs right on your doorstep, this villa delivers the very best of the Canggu lifestyle wrapped in one of the most architecturally distinctive designs on the island.
